In comparison with the total registra tion for four dayr in 1901 the figures fore the people is to get them out in show that there are still 99,357 voters to song form. I'll publish them next week.

Now, here is one of my latest songs register. Last year's total was 351,371 in Manhattan and the Bronx, and 232,083 voted. In 1898 the total registration in these boroughs was only 316,036, and the total vote was 300,285.

In Brooklyn there are still 60,191 voters be scattered round the taxes on the can be scattered found to be scattered from the taxes on the can hold their grants. to register to reach last year's figures, and the totals for the whole city show 450,574 for three days, as against 490,611 last year and 417,673 in 1888.

### Republican Losses.

An analysis of the registration shows the greatest slump in strong Republican districts in Manhattan and the Bronx, proving that Tammany Hall has made good her promise to get out her full strength. In the Republican Fifth, Nineteenth, Twenty-first, Twenty-fifth, Twenty-seventh, Twenty-ninth and Thirty-first Assembly Districts the falling off in registration for three days from last year is 10,831, while the Democratic Second, Fourth, Sixth. Eight, Fifteenth, Eighteenth and Thirty-fifth show a shortage of only 5,128, and this percentage is about the same in the other districts. In Brooklyn the showing is safe avorable to the Democrats.

There is great hustling on both sides to get out the laggards to-day, but it will have to beat all records to bring out the registration anywhere near up to completeness. Both sides boast confidence, but both sides are anxious. Both sides are scared.

"Then there is a bully chorus that comes in waitz time, and should cate the gang. It goes:

He urged that as his name was on the Democratic ticket no one could be injoined in his right to vote for him. Lawyer C. C. Kirk, representing Republican Chairman Dunn, made a long argument to the same effect, in which he was interrupted by the hurried entrance in the court room of a little man, who rushed up to the Judge's bench and exclaimed in a high volce:

## WILL INTEREST EVERYBODY,

Catarrh in its various forms is a national disease, and the fact that nearly everybedy suffers from it more or less leads many to

eglect its proper treatment. Nasal catarrh is a common cause of headches, destroys sense of smell, and if neglected reaches the throat, causing impair ment and sometimes total loss of voice. conchial catarrh leads easily to consumpion. Catarrh of stomach and liver are very erious and obstinate troubles, while it is now generally admitted that catarrh is the

emmon of all carres of deathers. All of the more serious forms of catarra begin with nasal catarrh, the local symptems being a profuse discharge, stoppage of nostrils, irritation and frequent clearing of

the throat, sneezing, coughing and gagging.
The old style of treatment with douches, inhalers, sprays, salves, &c., simply give temporary relief, and every one who has used any of them knows how useless they are, and their inconvenience is such that very few have the time or patience to continue their use. A radical cure of catarrh can only be ob-

tained from a treatment which removes the catarrhal taint from the blood, because no one will now dispute that catarrh is a constitutional or blood disease, and local applications can have no effect except to tempo-A new remedy which has been remarkable

The tablets, being pleasant to the taste, are dissolved in the mouth, and thus reach by druggists everywhere under the name of Stuart's Catarrh Tablets.

If desired, when there is much stoppage of the nose the tablets may be dissolved in warm water and used as a douche in addition to internal use, but a douche is not at all necessary. A few dissolved in the mouth daily will be sufficient. Dr. Ainslee says: "The regular daily use of Stuart's Catarrh Tablets taken internally will cure the whole, catarrhal trouble without resorting to the inconvenience of a douche or an inhaler."

They seem to give a healthy tone to the whole mucous membrane, and it is really remarkable how soon they will clear the head and throat of the unnatural and peisonous catarrhal secretion.

Stuart's Catarrh Tablets is undoubtedly the safest, most palatable and certainly the most efficient and convenient remedy for any form of catarrh.

No money is wanted-not from you nor from him. I ask only a postal card, and I ask it as an act of humanity.

Then I will do this: I will send the sick one an order-good at any drug store-for six bottles Dr. Shoop's Restorative. He may take it a month at my risk. If it succeeds, the cost is \$5.50. If it fails, I will pay the druggist myself. And the sick one's mere word shall decide it.

Could I meet you-for even ten minutes-I would forever convince you that I have what these sick ones need. More than that, they must have it, for most of them can never get well without it. But I can meet only a few, so I take this means to

convince you. I let you take it a month to prove what it can do; and you can pay, or I will pay, just as you decide. I have found the cured ones fair. In the past 12 years I have furnished my Restorative to hundreds of thousands on those terms, and 39 out of each 40 have paid—and paid gladly—because they were cured. I will pay just as willingly if you say I have failed.

My Restorative is the result of my life-time's work in

learning how to strengthen the inside nerves.

I don't doctor the organs, but I bring back the nerve power which alone operates every vital organ. I give the weak organ power to do its duty, as you would give a weak engine more steam. My way never fails, save when a cause—like cancer

makes a cure impossible. No case is too difficult, for I have watched the remedy succeed in the most desperate cases that physicians ever meet. You know some sick one who would be well with my help. Won't you let me furnish that help?
